

pixelrunner

*Turns a landscape
into an advertising
medium*

*At a quality, speed
and cost efficiency
never seen before.*

pixelrunner

Land Art Becomes Brand Art

www.pixelrunner.com

pixelrunner

The first Outdoor Print-Robot of the world.

*Land Art
Becomes
Brand Art*

pixelrunner

Prints on grass

Pregarten, 9/2016 - 25 x 15m (375 m²)

*We
set
marks ...*

*wherever conventional
branding doesn't reach.*

Automated. Fast. Self-Driving.

*Pixelrunner makes prints.
In every size. In all colors.*

*Brilliant and environmentally-friendly.
Pixelrunner makes every surface into an advertising medium.*

*Whether it's a logo or image print,
for the audience or for the camera:*

*We open new perspectives.
And a new dimension of outdoor advertising.*

Prints on snow

*And even if
it should be
10,000 m².*

*Ultra-large format printing –
For all those who like it really big.*

*200 m²? 2,000 m²? Or 20,000 m²?
Pixelrunner knows no limits.*

*No matter if it's a race track, sports field or ski run.
Pixelrunner prints every motif
on practically every ground.*

*From landscape advertising to sports sponsoring
to parking lot marking.*

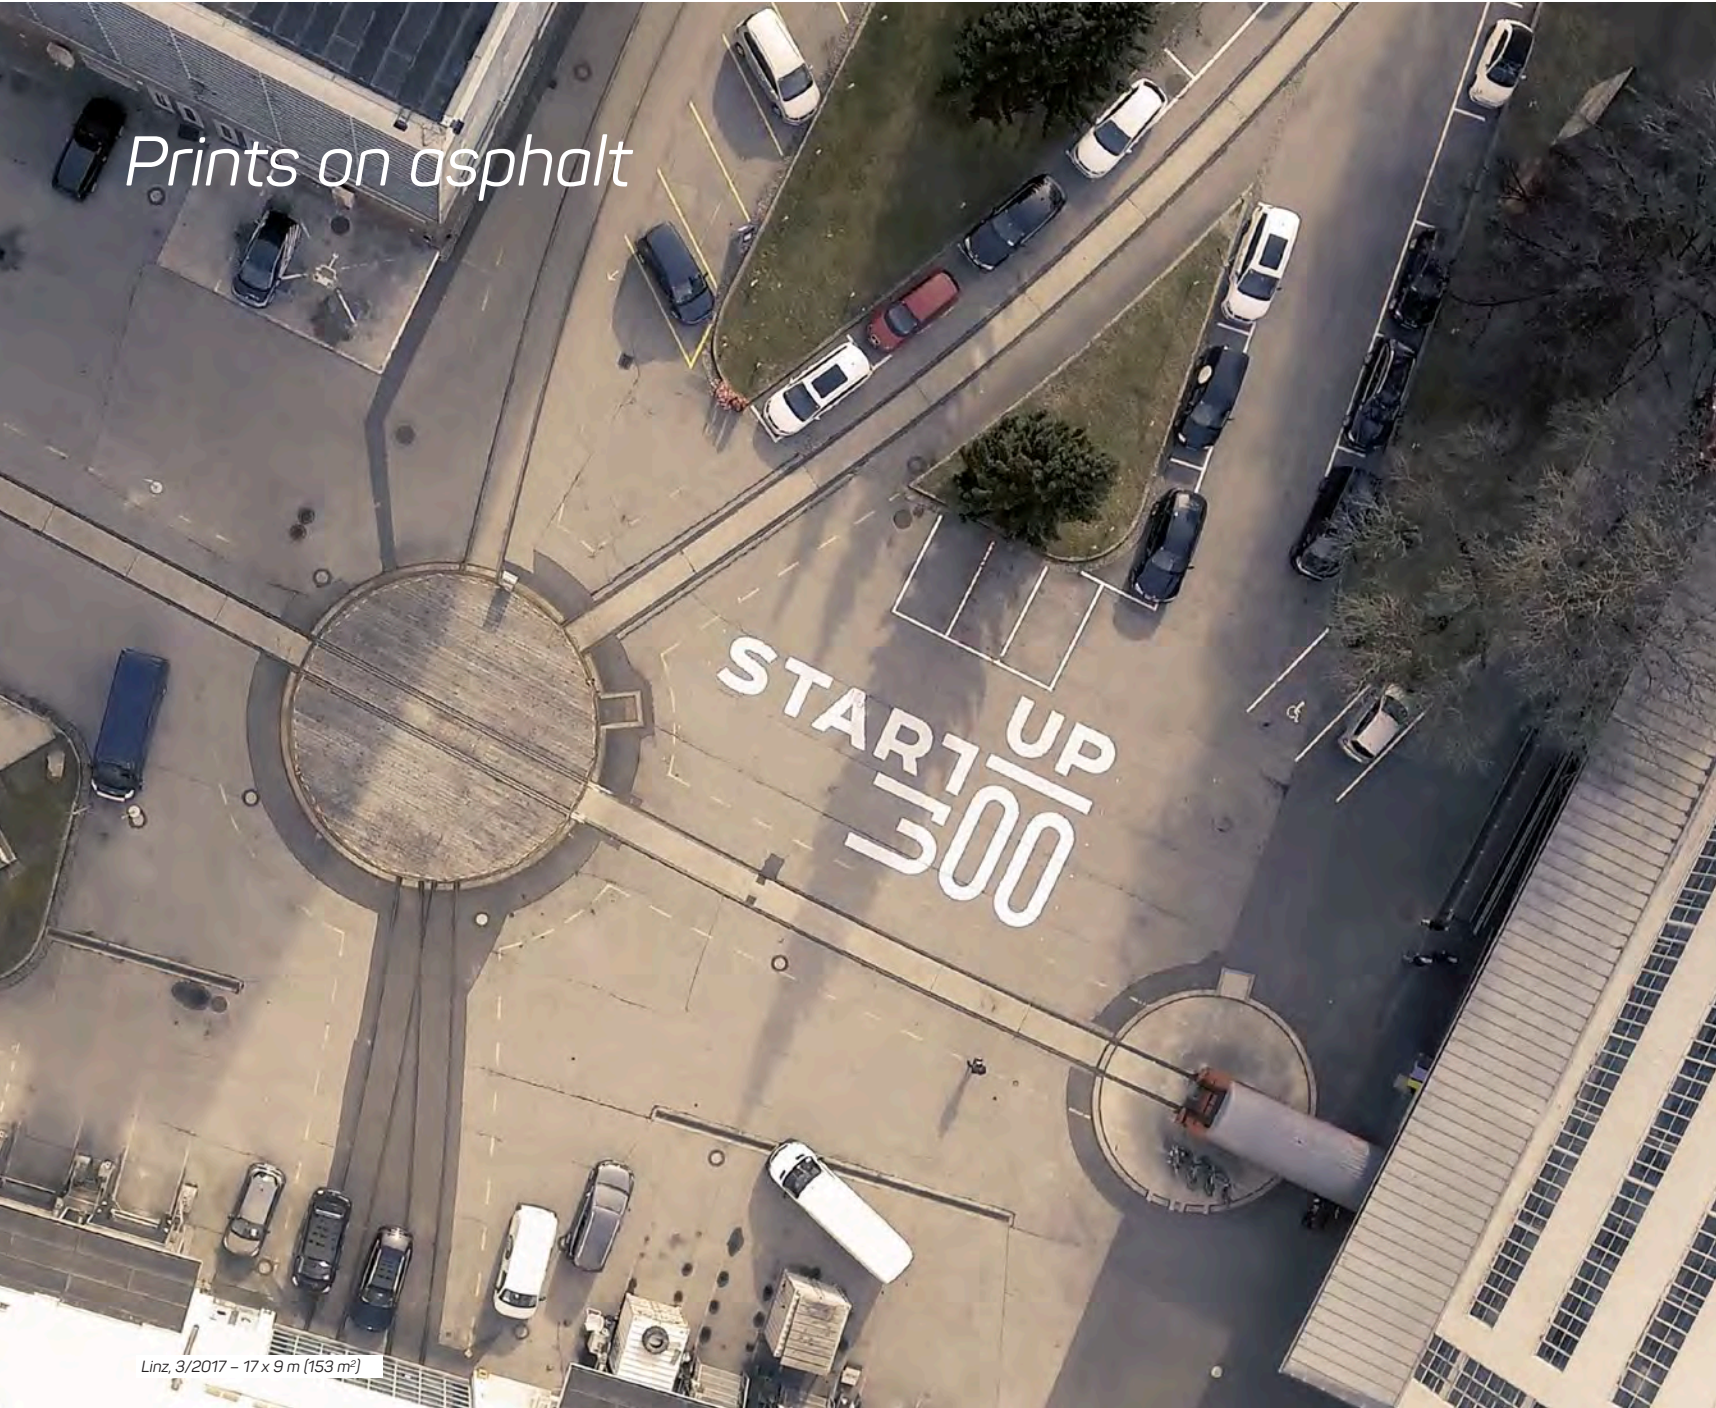

*And all of this in better quality, less time
and less money than ever possible before.*

pixelrunner

Prints on asphalt

*Everything
gets the
green light.*

*Noiseless, fast,
and clean.*

Only colors meeting the highest environmental standards and offering the best performance are put in the tank of a Pixelrunner.

*Whether for a few days at a festival or event.
Or for years in continuous use.*

*So much for the colors. And for the Pixelrunner itself?
A noiseless, clean electric robot.*

pixelrunner

Fast: Printing performance of up to 30 sqm per min

Efficient: 3 colors in 1 run
